Frontend Developer

SKILLS

Programming: JavaScript (ES6+), HTML, CSS

Frameworks: Nuxt JS (v3), Vue JS (v2 & v3), Jest, Node JS, Express JS, Bootstrap (v5), Tailwind CSS, Cypress, React JS

Vue Related: Vue Router, Vue Composition API, Vuex, Pinia

Deployment: Netlify, Heroku, GitHub Pages, AWS EC2 Instance

Tools: Postman, VS Code, Figma, Axios, Agile, Chrome Dev Tools, Git (GitHub), ESLint

WORK EXPERIENCE

Ordant • Illinois, USA • 05/2022 – Present

Remote

Frontend Developer • Full-time

- Developed and maintained advanced web applications using Vue.js and Nuxt.js, enhancing user experience and performance, leading to a 25% increase in user satisfaction scores.
- Integrated RESTful APIs with Axios, ensuring seamless communication between frontend and backend systems, improving data accuracy by 20%.
- Initiated state management with Vuex and Pinia, optimizing data flow and application state handling, resulting in a 30% reduction in data retrieval time.
- Collaborated with cross-functional teams using agile methodologies, ensuring timely delivery of features and improvements, reducing development cycle times by 15%.
- Conducted code reviews and utilized ESLint and Prettier, maintaining secured consistent and high-quality code, leading to a 40% decrease in post-deployment bugs.
- Deployed applications to Netlify, GitHub Pages, and AWS EC2 instances, ensuring robust and scalable deployment solutions, achieving 99.9% uptime.
- Established automated testing with Jest and Cypress, enhancing code reliability and coverage, resulting in a 50% reduction in bugs during the QA phase.

Reveal IQ • Andhra Pradesh, India • 12/2020 – 04/2022

Remote

Software Developer • Full-time

- Designed and engineered reusable components and libraries, facilitating code reuse and reducing development time, improving development efficiency by 20%.
- Conducted thorough code reviews and enforced coding standards using ESLint and Prettier, maintaining high code quality and consistency, resulting in a 35% reduction in code defects.
- Utilized Postman for rigorous API testing and debugging, ensuring reliable and efficient data integration, reducing API-related errors by 30%.
- Collaborated with UX/UI designers in Figma, translating design prototypes into functional web interfaces, enhancing user interface usability by 25%.
- Participated in daily stand-ups and sprint planning meetings, contributing to effective project management and team collaboration, increasing team productivity by 15%.

- Implemented CI/CD pipelines using GitHub Actions, automating the deployment process, resulting in a 40% increase in deployment frequency and reliability.
- Decreased application load time by 30% through optimization techniques, resulting in improved user experience and increased customer satisfaction.

PROJECTS

ResumeCraft AI: Intelligent Resume Builder for Professional Growth

expertresumes.in

Developed a resume builder website, 'Expert Resume,' using Vue.js, Nuxt.js and Tailwind CSS, enabling users to create and customize professional resumes efficiently. Integrated dynamic form handling, PDF generation, and user data persistence for seamless user experience.

VitalCare: Advanced Healthcare Monitoring System

Reveal IQ

Engineered 'VitalCare,' an advanced healthcare monitoring system that allows users to track vital health parameters, including heart rate, blood sugar levels, and blood pressure. The Vue.js-powered platform offers a seamless and intuitive user experience.
